

**Proclamation 7785—National  
Defense Transportation Day and  
National Transportation Week, 2004**

*May 14, 2004*

*By the President of the United States  
of America*

**A Proclamation**

Each year, America's transportation system helps many travelers reach their destinations and carries more than 16 billion tons of freight worth almost \$12 trillion. In addition, our transportation systems play a critical role in deploying and sustaining our troops and their equipment around the world.

Throughout our history, advances in transportation have been at the forefront of progress. Last December, we celebrated the centennial of the Wright Brothers' first flight in North Carolina. The pioneering work of the Wright Brothers and subsequent improvements in aviation ushered in new eras of freedom and captured the imaginations of people around the world.

Today, our Nation proudly continues this tradition of innovation in all transportation fields. As we observe National Defense Transportation Day and National Transportation Week, we continue to modernize transportation, and we honor transportation professionals who help to keep our transportation systems secure, efficient, and reliable.

To recognize the men and women who work in the transportation industry and who contribute to our Nation's well-being and defense, the Congress, by joint resolution approved May 16, 1957, as amended (36 U.S.C. 120), has designated the third Friday in May of each year as "National Defense Transportation Day," and, by joint resolution approved May 14, 1962, as amended (36 U.S.C. 133), declared that the week during which that Friday falls be designated as "National Transportation Week."

**Now, Therefore, I, George W. Bush,** President of the United States of America, do hereby proclaim Friday, May 21, 2004, as National Defense Transportation Day and May 16 through May 22, 2004, as National Transportation Week.

**In Witness Whereof,** I have hereunto set my hand this fourteenth day of May, in the

year of our Lord two thousand four, and of the Independence of the United States of America the two hundred and twenty-eighth.

**George W. Bush**

[Filed with the Office of the Federal Register, 8:45 a.m., May 18, 2004]

NOTE: This proclamation was released by the Office of the Press Secretary on May 15, and it was published in the *Federal Register* on May 19.

**Proclamation 7786—National  
Hurricane Preparedness Week, 2004**  
*May 14, 2004*

*By the President of the United States  
of America*

**A Proclamation**

Hurricanes are among nature's most powerful forces, bringing destructive winds, tornadoes, and floods from torrential rains and ocean storm surges. Each year, several hurricanes develop off American shores in the Atlantic Ocean, Caribbean Sea, and Gulf of Mexico. Some of these strike the United States coastline every year, causing numerous fatalities and costing billions of dollars in damage. Many Americans are vulnerable to the dangers of these storms.

In recent years, advances in how we predict and track these storms have improved preparedness and saved lives, but people living in hurricane-prone areas still must be prepared. The National Hurricane Center within the Department of Commerce's National Oceanic and Atmospheric Administration (NOAA) recommends developing a family disaster plan, creating a disaster supply kit, and staying aware of current weather situations.

While citizens make preparations to keep themselves safe, the Federal Government is maintaining our commitment to improve forecasts to provide advance warning and to coordinate effective emergency response. The Department of Homeland Security's Federal Emergency Management Agency is also working on a plan to better position disaster equipment and supplies, so Federal resources to support local emergency services arrive quickly.
